

Dedicated to a Strong Greater Minnesota

ACTION ALERT - Urge your legislators to support a \$45.5 million increase in LGA funding!

As the pace picks up at the Legislature, senators and representatives continue to consider the CGMC's proposal for a \$45.5 million increase in LGA over the next two years. The Legislature failed to pass a tax bill last session, and LGA funding stayed stagnant as a result. It's time to urge your legislators to finish their work this session by passing a tax bill that includes fully restoring LGA to its 2002 funding level.

Take action now!

As a Greater Minnesota city leader, it is imperative that you contact your own legislators, as well as the chairs of the Senate and House Tax Committees. Let them know that:

- 1) You and other members of your community expect them to pass a tax bill this session that includes a \$45.5 million increase in LGA.
- 2) LGA plays a vital role in helping cities provide essential services and hold down property taxes.
- 3) A \$45.5 million increase would bring LGA back up to its 2002 level—and this doesn't even account for inflation.
